---

Full Stack Developer with 5 years of experience building scalable web applications using Node.js, React.js, and TypeScript. Expertise in microservices architecture, API development, and performance optimization, with proven impact including **80%** cost reduction and **40%** downtime improvement. Experienced in integrating AI-based solutions and working across backend systems, cloud environments, and modern frontend frameworks.

## WORK EXPERIENCE

### Software Development Engineer

ELB Learning India Private Ltd. | 2024 - Present,

- Led R&D and evaluation of AI image enhancement models, selecting optimal solutions based on performance, quality, and cost efficiency
- Built a proof of concept (POC) to validate the feasibility of AI-driven image generation workflows
- Architected and developed a production-ready microservices system using Node.js and Python
- Implemented image versioning and iterative editing capabilities for enhanced user experience
- Reduced operational costs by **80%** by replacing expensive third-party APIs with optimized in-house solutions
- Improved system reliability, reducing downtime by **40%** through debugging and performance optimization
- Optimized performance using PostgreSQL and Redis caching for faster data access
- Leveraged AI-assisted tools (Cursor IDE) to accelerate development and improve productivity

### Associate Software Development Engineer

ELB Learning India Private Ltd. | 2023 - 2024,

- Developed a scalable web application using Vue.js and TypeScript

- Improved API response time by **25%** using lazy loading, code splitting, and query optimization
- Integrated third-party APIs to enhance application functionality

### **Software Development Engineer Intern**

ELB Learning India Private Ltd. | 2022 - 2023,

- Built subscription renewal features, reducing database storage and improving efficiency
- Integrated APIs and resolved production issues to improve system stability

### **Trainee Programmer**

Origin Learning Solutions Private Ltd. | 2021 - 2022,

- Built a Quiz module with React.js
- Developed an Admin module using AngularJS and PHP.
- Worked on Bug fixes and feature enhancements.

### **SKILLS**

- Languages: JavaScript (ES6+), TypeScript.
- Frontend Development: HTML, CSS, React.js, Vue.js, Tailwind CSS.
- Backend Development: PHP, Node.js, Express.js.
- State Management: Redux, Redux Toolkit, Context API, Pinia.
- Version Control: Git.
- Cloud & DevOps: AWS & Docker.
- API Integration: RESTful APIs.
- Databases: MongoDB, MySQL, PostgreSQL.
- Caching: Redis.
- Concepts: Microservices, REST APIs, System Design, Caching (Redis), Authentication (JWT)
- Tools: Postman, Prisma.
- AI Tools: Cursor IDE, Prompt Engineering

### **PROJECTS**

#### **AI Image Enhancement System (R&D → POC → Production)**

- Conducted R&D on AI image enhancement models, evaluating multiple approaches based on performance, quality, and real-world feasibility and cost efficiency

- Built a proof of concept (POC) to validate the technical feasibility and scalability of AI-driven image generation workflows
- Architected and developed a production-ready system using Node.js and Python with a microservices architecture
- Designed a system with React frontend, Node.js API layer, and Python services for image processing tasks
- Implemented image versioning and iterative editing capabilities for enhanced user control
- Optimized performance using PostgreSQL for metadata storage and Redis for caching.

### **Role-Based User Management System**

- Developed a full-stack application using React.js, Node.js, and MongoDB
- Implemented authentication and authorization using JWT and Passport.js
- Designed role-based access control (RBAC) for admin and user workflows
- Built a responsive UI using Tailwind CSS for efficient user management

### **EDUCATION**

B.E. in Computer Science and Engineering (06/2016 - 05/2020)

St.Joseph's College of Engineering and Technology, Thanjavur - 72%

### **ACHIEVEMENTS**

#### **Synergy Awards 2025/Q1, 2024/ Q2, 2023/ Q3 & 2023/ Q2**

Honored with the "ELEVATE" award for the core value of "We Before Me," and with the "Inspiring Role Model" award for exemplifying leadership.

#### **Synergy Awards 2022/ Q4 & 2022/ Q1**

Recognized twice as an "Individual Best Performer" for outstanding contributions
