Frontend-focused Developer with 5 years of experience building scalable and high-performance web applications using React.js, TypeScript, and modern UI frameworks. Skilled in developing responsive user interfaces, optimizing rendering performance, and implementing efficient state management solutions. Strong full-stack background with experience in Node.js, microservices architecture, and API integration.

WORK EXPERIENCE

Software Development Engineer

ELB Learning India Private Ltd. | 2024 - Present,

- Developed and maintained scalable React.js UI components for an AI-powered application
- Converted Figma designs into responsive, high-performance user interfaces
- Built reusable components using Redux Toolkit and Context API
- Optimized UI performance using lazy loading, memoization, and code splitting
- Integrated frontend with RESTful APIs for seamless data flow
- Improved system reliability, contributing to 40% reduction in downtime
- Leveraged AI-assisted tools (Cursor IDE) to accelerate development

Associate Software Development Engineer

ELB Learning India Private Ltd. | 2023 - 2024,

- Built a scalable frontend application using React.js and TypeScript
- Developed responsive UI using Tailwind CSS
- Improved performance using lazy loading and code splitting (25% faster API response)
- Integrated APIs and enhanced user experience

Software Development Engineer Intern

ELB Learning India Private Ltd. | 2022 - 2023,

- Built subscription renewal features, reducing database storage and improving efficiency
- Integrated APIs and resolved production issues to improve system stability

Trainee Programmer

Origin Learning Solutions Private Ltd. | 2021 - 2022,

- Built a Quiz module with React.js
- Developed an Admin module using ReactJS and PHP.
- Worked on Bug fixes and feature enhancements.

SKILLS

- Frontend: React.js, TypeScript, JavaScript (ES6+), HTML, CSS, Tailwind CSS
- State Management: Redux, Context API
- Tools: Git, Postman, JIRA
- Concepts: Performance Optimization, Component Architecture, REST APIs
- AI-assisted development: Cursor, Claude Code, Prompt Engineering

PROJECTS

AI Image Enhancement System (R&D → POC → Production)

- Developed React.js UI for AI-powered image editing with iterative workflows
- Built a responsive UI for dynamic image updates and state transitions.
- Integrated frontend with Node.js and Python APIs
- Contributed to the frontend development of a production-ready AI system using React.js

Role-Based User Management System

- Developed a full-stack application using React.js, Node.js, and MongoDB
- Implemented authentication and authorization using JWT and Passport.js
- Designed role-based access control (RBAC) for admin and user workflows
- Built a responsive UI using Tailwind CSS for efficient user management

EDUCATION

B.E. in Computer Science and Engineering (06/2016 - 05/2020)

St.Joseph's College of Engineering and Technology, Thanjavur - 72%

ACHIEVEMENTS

Synergy Awards 2025/Q1, 2024/ Q2, 2023/ Q3 & 2023/ Q2

Honored with the "**ELEVATE**" award for the core value of "**We Before Me**," and with the "**Inspiring Role Model**" award for exemplifying leadership.

Synergy Awards 2022/ Q4 & 2022/ Q1

Recognized twice as an "**Individual Best Performer**" for outstanding contributions.
